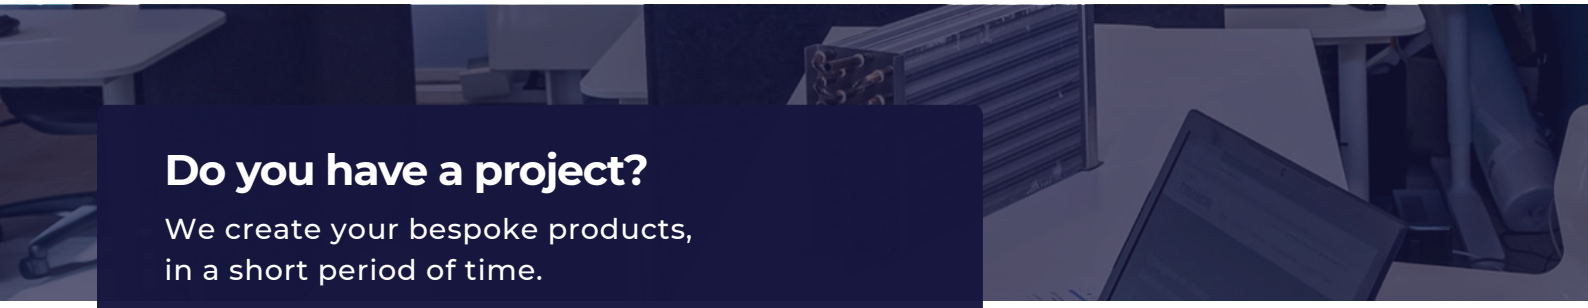
TRIANON
Décarbonation



Do you have a project?

We create your bespoke products,
in a short period of time.

Please contact us for a personalised technical assessment.

Our decarbonisation solutions

For over 40 years, TRIANON ÉCHANGEUR has specialised in the design and manufacture of customised heat recovery units. Our wide range of products allows us, for example, to recover waste heat from fumes up to 1000°C or steam...

Our waste heat recovery solutions not only reduce your carbon footprint, but also generate long-term savings. Industrial decarbonisation is essential in the fight against climate change. By calling on our expertise, you are actively contributing to the reduction of greenhouse gas emissions.
